

OJ Air PC tool version 1.2

The OJ Air PC Tool used for AHC-3000 is now released in version 1.2 and is available at OJ Electronics Skyfish customer log-in.

Changes since version 1.1.

The OJ Air PC Tool has been upgraded in order to secure compatibility with the latest Windows 10 version. Features and functionality is unchanged.

Upgrade your tool now

It's recommended to upgrade any older versions of the OJ Air PC Tool to the latest version. This will prevent problems when your Windows 10 at some point are upgraded. Otherwise you risk some failing tabs in the tool.
