GENERAL

The Smile Connect installation kit is used to perform the initial setup of a SCN-10.

The installation is carried out directly with a PC.

After connecting the PC using the SCI-10 Adapter, the device can be set up independent of the customer's Wifi network.

The system can thus be operated without using the customer's Wifi network.

FEATURES

- **USB-to-Ethernet converter**

APPLICATION

- **The Ethernet RJ45 connector is plugged into the PC and the USB connector is plugged into the SCN-10. After starting the browser on the PC, the installation wizard starts and the installer can do the initial setup of the system.**
