

Get connected with evohome

Connect **evohome** directly to your Wi-Fi network and the smartphone or tablet app lets you control your heating wherever you are. So, if you're away from home and need to turn your heating off or on, or up or down, you are always in control.

1. Visit www.mytotalconnectcomfort.com
2. Create an account and register the **evohome** Controller

You will need the MAC ID and CRC which can be found:

- On a label behind the front cover of the **evohome** Controller.
- On screen during the Wi-Fi set-up.
- In the SETTINGS > Wi-Fi SETTINGS menu after set-up has been completed.

MAC ID

CRC

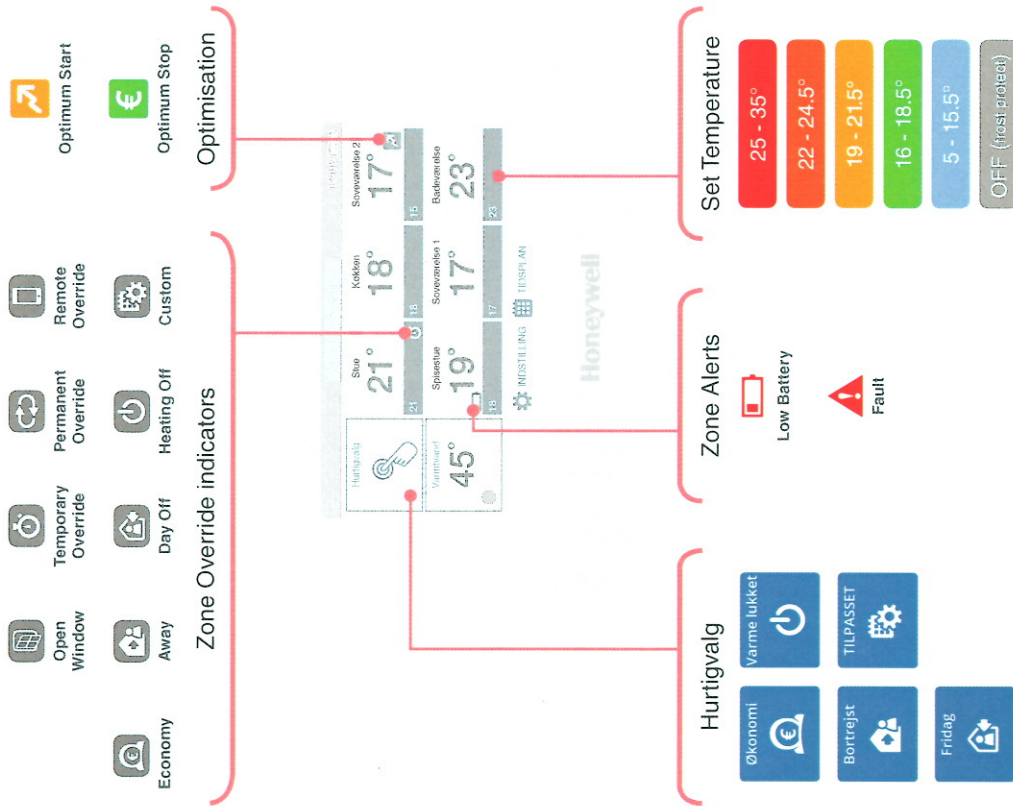

3. Download the 'Total Connect Comfort International' app for your Smartphone

Select your store

Get the App

The evohome display

For help with using the **evohome** controller or how to program or adjust the heating schedule, refer to the online User Guide at:
